## LaSalle County Covid Community Level

|  |   |      |
|--|---|------|
| <b>LaSalle County CDC Community Level</b><br><br><div style="background-color: #92d050; padding: 20px; text-align: center; font-size: 2em; font-weight: bold;">LOW</div> | Case Rate per 100,000 population                                    | 0*   |
|  | New COVID-19 admissions per 100,000 population                      | 6    |
|  | % Staffed inpatient beds in use by patients with confirmed COVID-19 | 2.8% |

\*NOTE from CDC: January 12, 2023: Due to a reporting cadence issue, Illinois's aggregate case and death data will be reported as 0. As a result, case and death metrics will appear lower than expected in COVID Data Tracker's January 12, 2023, release. COVID-19

Community Levels and Community Transmission metrics may be underestimated and should be interpreted with caution.

## What Prevention Steps Should You Take Based on Your COVID-19 Community Level?

| Low   | Medium  | High  |
|---|---|---|
| <ul style="list-style-type: none"> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> </ul>   | <ul style="list-style-type: none"> <li>If you are <u>at high risk for severe illness</u>, talk to your healthcare provider about whether you need to wear a mask and take other precautions</li> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> </ul> | <ul style="list-style-type: none"> <li>Wear a <u>mask</u> indoors in public</li> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> <li>Additional precautions may be needed for people <u>at high risk for severe illness</u></li> </ul> |
| People may choose to mask at any time. People with <u>symptoms, a positive test, or exposure</u> to someone with COVID-19 should wear a mask. Masks are required on <u>public transportation</u> and may be required in other places by local or state authorities. |   |   |

- Current LaSalle County Case Counts
  - Case Breakdown
  - Death Case Data
  - Case Data by City
- LaSalle County Health Department Testing Information
- Local Hospital Testing Information
- COVID-19 Vaccine in LaSalle County
- Influenza Activity

## LaSalle County COVID Numbers at a Glance

Week ending 1/20/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|--------|---------------------|------------|-----------------------|
| 36,395     | 8,253              | 509    | 88                  | 35,386     | 138.03                |

Week ending 01/13/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|--------|---------------------|------------|-----------------------|
| 36,295     | 8,196              | 509    | 88                  | 35,224     | 0*                    |

Week ending 01/06/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|--------|---------------------|------------|-----------------------|
| 36,165     | 8,119              | 507    | 87                  | 35,046     | 219.01                |

Week ending 12/30/22

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|--------|---------------------|------------|-----------------------|
| 36,006     | 8,060              | 506    | 87                  | 34,893     | 92.02                 |

\*NOTE from CDC: January 12, 2023: Due to a reporting cadence issue, Illinois's aggregate case and death data will be reported as 0. As a result, case and death metrics will appear lower than expected in COVID Data Tracker's January 12, 2023, release. COVID-19 Community Levels and Community Transmission metrics may be underestimated and should be interpreted with caution.

## LaSalle County Covid Community Level

|   |   |        |
|---|---|--------|
| <b>LaSalle County CDC Community Level</b><br><br><b>LOW</b> | Case Rate per 100,000 population                                    | 138.03 |
|   | New COVID-19 admissions per 100,000 population                      | 9.3    |
|   | % Staffed inpatient beds in use by patients with confirmed COVID-19 | 4.7%   |

## What Prevention Steps Should You Take Based on Your COVID-19 Community Level?

| Low   | Medium  | High  |
|---|---|---|
| <ul style="list-style-type: none"> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> </ul>   | <ul style="list-style-type: none"> <li>If you are <u>at high risk for severe illness</u>, talk to your healthcare provider about whether you need to wear a mask and take other precautions</li> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> </ul> | <ul style="list-style-type: none"> <li>Wear a <u>mask</u> indoors in public</li> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> <li>Additional precautions may be needed for people <u>at high risk for severe illness</u></li> </ul> |
| People may choose to mask at any time. People with <u>symptoms, a positive test, or exposure</u> to someone with COVID-19 should wear a mask. Masks are required on <u>public transportation</u> and may be required in other places by local or state authorities. |   |   |

| Total                                | 231   | 157   | 117   | <b>3</b> |
| % Deaths/<br>Total Cases per<br>year | 2.73% | 1.45% | 0.70% |          |

\*Two previously reported November 2020 Deaths were counted twice. Two previously reported deaths in April did not reside in County. The total has been adjusted.

\*\*6 deaths reported in April occurred in previous months (1 in August 2021, 1 in December 2021, and 4 in January 2022). These deaths have been added to the correct month and year.

\*\*\* Annual audit of cases found 2 deaths in 2022 to not have occurred from Covid. Audit additionally found 15 duplicate cases. Monthly and yearly numbers have been adjusted to reflect removal of these cases/deaths.

|       | M      | F      | % by age group | % of reported deaths |

| Total                                | 231   | 157   | 117   | <b>7</b> |
| % Deaths/<br>Total Cases per<br>year | 2.73% | 1.45% | 0.70% |          |

\*Two previously reported November 2020 Deaths were counted twice. Two previously reported deaths in April did not reside in County. The total has been adjusted.

\*\*6 deaths reported in April occurred in previous months (1 in August 2021, 1 in December 2021, and 4 in January 2022). These deaths have been added to the correct month and year.

\*\*\* Annual audit of cases found 2 deaths in 2022 to not have occurred from Covid. Audit additionally found 15 duplicate cases. Monthly and yearly numbers have been adjusted to reflect removal of these cases/deaths.

| Total                                | 231   | 157   | 117   | <b>7</b> |
| % Deaths/<br>Total Cases per<br>year | 2.73% | 1.45% | 0.70% |          |

\*Two previously reported November 2020 Deaths were counted twice. Two previously reported deaths in April did not reside in County. The total has been adjusted.

\*\*6 deaths reported in April occurred in previous months (1 in August 2021, 1 in December 2021, and 4 in January 2022). These deaths have been added to the correct month and year.

\*\*\* Annual audit of cases found 2 deaths in 2022 to not have occurred from Covid. Audit additionally found 15 duplicate cases. Monthly and yearly numbers have been adjusted to reflect removal of these cases/deaths.

| Total                                | 231   | 157   | 117   | <b>7</b> |
| % Deaths/<br>Total Cases per<br>year | 2.73% | 1.45% | 0.70% |          |

\*Two previously reported November 2020 Deaths were counted twice. Two previously reported deaths in April did not reside in County. The total has been adjusted.

\*\*6 deaths reported in April occurred in previous months (1 in August 2021, 1 in December 2021, and 4 in January 2022). These deaths have been added to the correct month and year.

\*\*\* Annual audit of cases found 2 deaths in 2022 to not have occurred from Covid. Audit additionally found 15 duplicate cases. Monthly and yearly numbers have been adjusted to reflect removal of these cases/deaths.

| December                             | 102   | 28    | 5     |          |
| Total                                | 231   | 157   | 117   | <b>8</b> |
| % Deaths/<br>Total Cases per<br>year | 2.73% | 1.45% | 0.70% |          |

\*Two previously reported November 2020 Deaths were counted twice. Two previously reported deaths in April did not reside in County. The total has been adjusted.

\*\*6 deaths reported in April occurred in previous months (1 in August 2021, 1 in December 2021, and 4 in January 2022). These deaths have been added to the correct month and year.

\*\*\* Annual audit of cases found 2 deaths in 2022 to not have occurred from Covid. Audit additionally found 15 duplicate cases. Monthly and yearly numbers have been adjusted to reflect removal of these cases/deaths.

|       | M      | F      | % by age group | % of reported deaths |

## Local Hospital Testing Information

Please visit our local hospital's websites for information regarding COVID-19 testing:

### **OSF Healthcare (Ottawa, Mendota, Streator)**

<https://www.osfhealthcare.org/covid19/about/testing/>

### **St Margaret's Health Spring Valley**

<https://aboutsmh.org/clinics/testingcenter/>

## COVID-19 Vaccine - LaSalle County

### **LaSalle County Health Department**

LaSalle County Health Department urges everyone 6 months and older to get vaccinated and all eligible individuals to get a bivalent booster. The LaSalle County Health Department has COVID-19 vaccine available at the Health Department by appointment only. Residents who still need to be vaccinated or are in need of a bivalent booster dose should visit our website [www.lasallecountyil.gov](http://www.lasallecountyil.gov), click on the COVID-19 Resource Page and then the Vaccine information icon to schedule an appointment.

To find a COVID-19 vaccination location near you, go to [www.vaccines.gov](http://www.vaccines.gov).

## Influenza Activity

|  |  | Illinois | United States |
|--|--|----------|---------------|
| Illinois<br>Influenza<br>Transmission<br>Level | % Outpatient Visits for ILI*   | 2.32%    | 2.4 %         |
|  | % of Influenza positive tests for Current Week                             | 0.9 %    | 0.9 %         |
|  | Influenza Associated Hospital Admissions (Illinois ICU only is reportable) | 2        | 1418          |
|  | Influenza Associated Pediatric Deaths Season Total                         | 6        | 125           |
| Minimal  |  |          |               |

\*ILI "Influenza like Illness" is defined as fever  $\geq 100^{\circ}\text{F}$  with a cough and/or sore throat.

## Local Hospital Testing Information

Please visit our local hospital's websites for information regarding COVID-19 testing:

### **OSF Healthcare (Ottawa, Mendota, Streator)**

<https://www.osfhealthcare.org/covid19/about/testing/>

### **St Margaret's Health Spring Valley**

<https://aboutsmh.org/clinics/testingcenter/>

## COVID-19 Vaccine - LaSalle County

### **LaSalle County Health Department**

LaSalle County Health Department urges everyone 6 months and older to get vaccinated and all eligible individuals to get a bivalent booster. The LaSalle County Health Department has COVID-19 vaccine available at the Health Department by appointment only. Residents who still need to be vaccinated or are in need of a bivalent booster dose should visit our website [www.lasallecountyil.gov](http://www.lasallecountyil.gov), click on the COVID-19 Resource Page and then the Vaccine information icon to schedule an appointment.

To find a COVID-19 vaccination location near you, go to [www.vaccines.gov](http://www.vaccines.gov).

## Influenza Activity

|  |  | Illinois | United States |
|--|--|----------|---------------|
| <b>Illinois<br/>Influenza<br/>Transmission<br/>Level</b><br><br><b>Minimal</b> | % Outpatient Visits for ILI*   | 1.84%    | 2.4%          |
|  | % of Influenza positive tests for Current Week                             | 0.6%     | 1.0%          |
|  | Influenza Associated Hospital Admissions (Illinois ICU only is reportable) | 1        | 1387          |
|  | Influenza Associated Pediatric Deaths Season Total                         | 6        | 132           |

\*ILI "Influenza like Illness" is defined as fever  $\geq 100^{\circ}\text{F}$  with a cough and/or sore throat.

## COVID-19 Vaccine - LaSalle County

### **LaSalle County Health Department**

LaSalle County Health Department urges everyone 6 months and older to get vaccinated and all eligible individuals to get a bivalent booster. The LaSalle County Health Department has COVID-19 vaccine available at the Health Department by appointment only. Residents who still need to be vaccinated or are in need of a bivalent booster dose should visit our website [www.lasallecountyil.gov](http://www.lasallecountyil.gov), click on the COVID-19 Resource Page and then the Vaccine information icon to schedule an appointment.

To find a COVID-19 vaccination location near you, go to [www.vaccines.gov](http://www.vaccines.gov).

## Influenza Activity

|  |  | Illinois | United States |
|--|--|----------|---------------|
| <b>Illinois<br/>Influenza<br/>Transmission<br/>Level</b><br><br><b>Minimal</b> | % Outpatient Visits for ILI*   | 2.28%    | 2.4%          |
|  | % of Influenza positive tests for Current Week                             | 0.4%     | 0.8%          |
|  | Influenza Associated Hospital Admissions (Illinois ICU only is reportable) | 1        | 1382          |
|  | Influenza Associated Pediatric Deaths Season Total                         | 6        | 134           |

\*ILI "Influenza like Illness" is defined as fever  $\geq 100^{\circ}\text{F}$  with a cough and/or sore throat.

| Total                                | 231   | 157   | 117   | <b>8</b> |
| % Deaths/<br>Total Cases per<br>year | 2.73% | 1.45% | 0.70% |          |

\*Two previously reported November 2020 Deaths were counted twice. Two previously reported deaths in April did not reside in County. The total has been adjusted.

\*\*6 deaths reported in April occurred in previous months (1 in August 2021, 1 in December 2021, and 4 in January 2022). These deaths have been added to the correct month and year.

\*\*\* Annual audit of cases found 2 deaths in 2022 to not have occurred from Covid. Audit additionally found 15 duplicate cases. Monthly and yearly numbers have been adjusted to reflect removal of these cases/deaths.

|       | M      | F      | % by age group | % of reported deaths |

## COVID Bulletin and Reporting Update

As we approach the end of the national emergency and public health emergency declarations for addressing the COVID-19 pandemic on May 11, 2023, the LaSalle County Health Department (LCHD) will be discontinuing the Weekly COVID-19 Bulletin in its current format. The last COVID-19 Bulletin will be published on Friday, May 12<sup>th</sup>.

The bulletin has served as a way to reach our community partners and the public since 2020 with accurate and timely data related to COVID-19. We appreciate your

interest and continued support.

Additionally, we will be updating how we report COVID-19 local data. Starting on Friday, April 21st, weekly COVID-19 reports will be posted via our social media pages (Facebook and Twitter) and on the department's updated COVID-19 web page here: <https://www.lasallecountyil.gov/721/COVID-19-Resources-and-Updates>.

The COVID-19 report will be updated every Friday (except county holidays). Please note, the weekly updates provided on the site will now only include new cases, total cases, new deaths, total deaths and community level.

This web page provides the most up-to-date information residents need to monitor how COVID-19 is impacting their community and make informed personal health decisions to protect themselves and others, such as: changes to community levels & recommended actions; weekly cases; and deaths. It also contains valuable links to assist residents to monitor symptoms, access testing locations, determine isolation & exposure calculations, and locate COVID-19 treatments and vaccines. Lastly, it provides links to detailed COVID-19 data and demographics from the CDC and IDPH.

LCHD continues to monitor newly-reported COVID-19 cases, hospitalizations, and deaths just as we do for other reportable diseases. Monitoring COVID-19 and keeping the public informed is very important to us. If things change or we feel that, based on current conditions, a return to more detailed COVID reports is necessary, we will adjust accordingly.

## LaSalle County COVID Numbers at a Glance

Week ending 04/14/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |

## Local Hospital Testing Information

Please visit our local hospital's websites for information regarding COVID-19 testing:

### **OSF Healthcare (Ottawa, Mendota, Streator)**

<https://www.osfhealthcare.org/covid19/about/testing/>

### **St Margaret's Health Spring Valley**

<https://aboutsmh.org/clinics/testingcenter/>

## COVID-19 Vaccine - LaSalle County

### **LaSalle County Health Department**

LaSalle County Health Department urges everyone 6 months and older to get vaccinated and all eligible individuals to get a bivalent booster. The LaSalle County Health Department has COVID-19 vaccine available at the Health Department by appointment only. Residents who still need to be vaccinated or are in need of a bivalent booster dose should visit our website [www.lasallecountyil.gov](http://www.lasallecountyil.gov), click on the COVID-19 Resource Page and then the Vaccine information icon to schedule an appointment.

To find a COVID-19 vaccination location near you, go to [www.vaccines.gov](http://www.vaccines.gov).

## Influenza Activity

|   |  | Illinois | United States |
|---|--|----------|---------------|
| <div>Illinois Influenza Transmission Level</div> <div>Minimal</div> | % Outpatient Visits for ILI*   | 1.36%    | 2.3%          |
|   | % of Influenza positive tests for Current Week                             | 1.3%     | 0.9%          |
|   | Influenza Associated Hospital Admissions (Illinois ICU only is reportable) | 0        | 1230          |
|   | Influenza Associated Pediatric Deaths Season Total                         | 6**      | 139           |

\*ILI "Influenza like Illness" is defined as fever  $\geq 100^{\circ}\text{F}$  with a cough and/or sore throat.

\*\* updated to match IDPH number data

  - What Prevention Steps Should You Take Based on Your Community Level
- LaSalle County Covid Vaccinations
- Current LaSalle County Case Counts
  - Case Breakdown
  - Death Case Data
  - Case Data by City
- Local Hospital Testing Information
- COVID-19 Vaccine in LaSalle County
- Influenza Activity

## COVID Bulletin and Reporting Update

Starting today, we are updating how we report COVID-19 local data. Weekly COVID-19 reports will be posted via our social media pages (Facebook and Twitter) and on the department's updated COVID-19 web page here: <https://www.lasallecountyil.gov/721/COVID-19-Resources-and-Updates>.

As we approach the end of the national emergency and public health emergency declarations for addressing the COVID-19 pandemic on May 11, 2023, the LaSalle County Health Department (LCHD) will be discontinuing the Weekly COVID-19 Bulletin in its current format. The last COVID-19 Bulletin will be published on Friday, May 12<sup>th</sup>.

Our web page provides the most up-to-date information residents need to monitor how COVID-19 is impacting their community and make informed personal health decisions to protect themselves and others, such as: changes to community levels & recommended actions; weekly cases; and deaths. It also contains valuable links to assist residents to monitor symptoms, access testing locations, determine isolation & exposure calculations, and locate COVID-19 treatments and vaccines. Lastly, it provides links to detailed COVID-19 data and demographics from the CDC and IDPH.

LCHD continues to monitor newly-reported COVID-19 cases, hospitalizations, and deaths just as we do for other reportable diseases. Monitoring COVID-19 and keeping the public informed is very important to us. If things change or we feel that, based on current conditions, a return to more detailed COVID reports is necessary, we will adjust accordingly.

## LaSalle County COVID Numbers at a Glance

A death reported in January 2023, later had Covid removed from the Death Certificate as a contributing cause of death and therefore has been removed from the total.

Week ending 04/21/23

| Case Count | Breakthrough cases | Deaths * | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|----------|---------------------|------------|-----------------------|
| 37,386     | 8,819              | 515      | 93                  | 36,625     | 46.01                 |

Week ending 04/14/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|--------|---------------------|------------|-----------------------|
| 37,344     | 8,797              | 514    | 91                  | 36,578     | 47.85                 |

Week ending 04/06/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|--------|---------------------|------------|-----------------------|
| 37,299     | 8,747              | 513    | 90                  | 36,514     | 83.74                 |

Week ending 03/31/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |
|------------|--------------------|--------|---------------------|------------|-----------------------|
| 37,219     | 8703               | 513    | 90                  | 36,423     | 60.73                 |

## LaSalle County Covid Community Level

|   |   |       |
|---|---|-------|
| <div>LaSalle County CDC Community Level</div> <div><b>LOW</b></div> | Case Rate per 100,000 population                                    | 46.01 |
|   | New COVID-19 admissions per 100,000 population                      | 4.4   |
|   | % Staffed inpatient beds in use by patients with confirmed COVID-19 | 2.5   |

### What Prevention Steps Should You Take Based on Your COVID-19 Community Level?

| Low   | Medium  | High  |
|---|---|---|
| <ul style="list-style-type: none"> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> </ul>   | <ul style="list-style-type: none"> <li>If you are <u>at high risk for severe illness</u>, talk to your healthcare provider about whether you need to wear a mask and take other precautions</li> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> </ul> | <ul style="list-style-type: none"> <li>Wear a <u>mask</u> indoors in public</li> <li>Stay <u>up to date</u> with COVID-19 vaccines</li> <li><u>Get tested</u> if you have symptoms</li> <li>Additional precautions may be needed for people <u>at high risk for severe illness</u></li> </ul> |
| People may choose to mask at any time. People with <u>symptoms, a positive test, or exposure</u> to someone with COVID-19 should wear a mask. Masks are required on <u>public transportation</u> and may be required in other places by local or state authorities. |   |   |

## COVID-19 Vaccine - LaSalle County

### **LaSalle County Health Department**

LaSalle County Health Department urges everyone 6 months and older to get vaccinated and all eligible individuals to get a bivalent booster. The LaSalle County Health Department has COVID-19 vaccine available at the Health Department by appointment only. Residents who still need to be vaccinated or are in need of a bivalent booster dose should visit our website [www.lasallecountyil.gov](http://www.lasallecountyil.gov), click on the COVID-19 Resource Page and then the Vaccine information icon to schedule an appointment.

To find a COVID-19 vaccination location near you, go to [www.vaccines.gov](http://www.vaccines.gov).

## Influenza Activity

|   |  | Illinois | United States |
|---|--|----------|---------------|
| <div>Illinois Influenza Transmission Level</div> <div>Minimal</div> | % Outpatient Visits for ILI*   | 1.2%     | 2.1%          |
|   | % of Influenza positive tests for Current Week                             | 1.3%     | 1.0%          |
|   | Influenza Associated Hospital Admissions (Illinois ICU only is reportable) | 2        | 1199          |

## COVID Bulletin and Reporting Update

As we approach the end of the national emergency and public health emergency declarations for addressing the COVID-19 pandemic on May 11, 2023, the LaSalle County Health Department (LCHD) will be discontinuing the Weekly COVID-19 Bulletin in its current format. The last COVID-19 Bulletin will be published on Friday, May 12<sup>th</sup>.

Our web page provides the most up-to-date information residents need to monitor how COVID-19 is impacting their community and make informed personal health

decisions to protect themselves and others, such as: changes to community levels & recommended actions; weekly cases; and deaths. It also contains valuable links to assist residents to monitor symptoms, access testing locations, determine isolation & exposure calculations, and locate COVID-19 treatments and vaccines. Lastly, it provides links to detailed COVID-19 data and demographics from the CDC and IDPH.

LCHD continues to monitor newly-reported COVID-19 cases, hospitalizations, and deaths just as we do for other reportable diseases. Monitoring COVID-19 and keeping the public informed is very important to us. If things change or we feel that, based on current conditions, a return to more detailed COVID reports is necessary, we will adjust accordingly.

## LaSalle County COVID Numbers at a Glance

A death reported in January 2023, later had Covid removed from the Death Certificate as a contributing cause of death and therefore has been removed from the total.

Week ending 04/28/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |

## Thank you for Your Support!

Our staff would like to take a moment to thank all of you in our communities for your support during these past few years. When COVID-19 virus was first identified in early 2020, it was a new virus - the world had no natural immunity, or vaccine to help us fight the virus. Globally, many restrictions that hadn't been utilized since the 1918 flu pandemic were implemented – global travel restrictions, stay at home orders, social

distancing and masking mandates became part of our new normal. The restrictions were at first, an attempt to stop the virus in its tracks, but later became more about protecting the most vulnerable members of our communities from severe infection.

Since the beginning of the pandemic the LaSalle County Health Department has aimed to provide our residents with the most up-to-date Covid-19 information as well as the local data regarding local disease transmission. This data helped our businesses, schools, hospitals, long term care facilities and our residents to make informed decisions about protecting our community and themselves from infection and most importantly from severe infection.

Our local communities and our community partners, worked together to help insure protection for our vulnerable populations while trying to maintain a sense of normalcy in these unprecedented times. As we know, the national and state emergency and public health emergency declarations for addressing the COVID-19 pandemic will end on May 11, 2023. But, Covid-19 has not disappeared, rather it has become part of our daily lives. It is still here and will likely continue to be a threat to our vulnerable populations for several years. But, we know so much more about the virus and have made so much progress in our fight against severe infection. We have the tools available to fight severe infection and protect our loved ones and members of our community. Those tools include: stay home if you are not feeling well; stay up to date on your vaccination status; test if you are symptomatic; wear a mask if you test positive and must go out; and always, always, always wash your hands.

As we move out of the emergency phase of the pandemic, please remember that our web page will continue to provide the most up-to-date information residents need to monitor how COVID-19 is impacting their community and to make informed personal health decisions to protect themselves and others, such as weekly cases and deaths. Our webpage also contains valuable links to assist residents to monitor symptoms, access testing locations, determine isolation & exposure calculations, and locate COVID-19 treatments

and vaccines. Lastly, it provides links to detailed COVID-19 data and demographics from the CDC and IDPH.

LaSalle County Health Department continues to monitor newly-reported COVID-19 cases, hospitalizations, and deaths just as we do for other reportable diseases. Monitoring COVID-19 and keeping the public informed is very important to us. If things change or we feel that, based on current conditions, a return to more detailed COVID reports is necessary, we will adjust accordingly.

Thank you for all your support!

\*Two previously reported November 2020 Deaths were counted twice. Two previously reported deaths in April did not reside in County. The total has been adjusted.

\*\*6 deaths reported in April occurred in previous months (1 in August 2021, 1 in December 2021, and 4 in January 2022). These deaths have been added to the correct month and year.

\*\*\* Annual audit of cases found 2 deaths in 2022 to not have occurred from Covid. Audit additionally found 15 duplicate cases. Monthly and yearly numbers have been adjusted to reflect removal of these cases/deaths.

\*\*\*\* A death reported in January 2023, later had Covid removed from the Death Certificate as a contributing cause of death and therefore has been removed from the total.

## Local Hospital Testing Information

Please visit our local hospital's websites for information regarding COVID-19 testing:

### **OSF Healthcare (Ottawa, Mendota, Streator)**

<https://www.osfhealthcare.org/covid19/about/testing/>

### **St Margaret's Health Spring Valley**

<https://aboutsmh.org/clinics/testingcenter/>

## COVID-19 Vaccine - LaSalle County

### **LaSalle County Health Department**

LaSalle County Health Department urges everyone 6 months and older to get vaccinated and all eligible individuals to get a bivalent booster. The LaSalle County Health Department has COVID-19 vaccine available at the Health Department by appointment only. Residents who still need to be vaccinated or are in need of a bivalent booster dose should visit our website [www.lasallecountyil.gov](http://www.lasallecountyil.gov), click on the COVID-19 Resource Page and then the Vaccine information icon to schedule an appointment.

To find a COVID-19 vaccination location near you, go to [www.vaccines.gov](http://www.vaccines.gov).

## Influenza Activity

|   |  | Illinois | United States |
|---|--|----------|---------------|
| <div>Illinois<br/>Influenza<br/>Transmission<br/>Level</div> <div>Minimal</div> | % Outpatient Visits for ILI*   | 1.09%    | 1.9%          |
|   | % of Influenza positive tests for Current Week                             | 0.9%     | 0.9%          |
|   | Influenza Associated Hospital Admissions (Illinois ICU only is reportable) | 0        | 984           |
|   | Influenza Associated Pediatric Deaths Season Total                         | 6**      | 145           |

\*ILI "Influenza like Illness" is defined as fever  $\geq 100^{\circ}\text{F}$  with a cough and/or sore throat.

- Local Hospital Testing Information
- COVID-19 Vaccine in LaSalle County
- Influenza Activity

## COVID Bulletin and Reporting Update

The national emergency and public health emergency declarations for addressing the COVID-19 pandemic ended on May 11, 2023, therefore the LaSalle County Health Department (LCHD) is discontinuing the Weekly COVID-19 Bulletin in its current format. This will be the last COVID-19 Bulletin.

Our web page provides the most up-to-date information residents need to monitor how COVID-19 is impacting their community and make informed personal health decisions to protect themselves and others, such as: weekly cases and deaths. It also contains valuable links to assist residents to monitor symptoms, access testing locations, determine isolation & exposure calculations, and locate COVID-19 treatments and vaccines. Lastly, it provides links to updates from the CDC and IDPH.

LCHD will continue to monitor newly-reported COVID-19 cases, hospitalizations, and deaths just as we do for other reportable diseases. Monitoring COVID-19 and keeping the public informed is very important to us. If things change or we feel that, based on current conditions, a return to more detailed COVID reports is necessary, we will adjust accordingly.

## LaSalle County COVID Numbers at a Glance

A death reported in January 2023, later had Covid removed from the Death Certificate as a contributing cause of death and therefore has been removed from the total.

Week ending 05/12/23

| Case Count | Breakthrough cases | Deaths | Breakthrough Deaths | Recoveries | Case Rate Per 100,000 |

## Local Hospital Testing Information

Please visit our local hospital's websites for information regarding COVID-19 testing:

### **OSF Healthcare (Ottawa, Mendota, Streator)**

<https://www.osfhealthcare.org/covid19/about/testing/>

### **St Margaret's Health Spring Valley**

<https://aboutsmh.org/clinics/testingcenter/>

## COVID-19 Vaccine - LaSalle County

### **LaSalle County Health Department**

LaSalle County Health Department urges everyone 6 months and older to get vaccinated and all eligible individuals to get a bivalent booster. The LaSalle County Health Department has COVID-19 vaccine available at the Health Department by appointment only. Residents who still need to be vaccinated or are in need of a bivalent booster dose should visit our website [www.lasallecountyil.gov](http://www.lasallecountyil.gov), click on the COVID-19 Resource Page and then the Vaccine information icon to schedule an appointment.

To find a COVID-19 vaccination location near you, go to [www.vaccines.gov](http://www.vaccines.gov).

## Influenza Activity

|   |  | Illinois | United States |
|---|--|----------|---------------|
| <div>Illinois Influenza Transmission Level</div> <div>Minimal</div> | % Outpatient Visits for ILI*   | 1.21%    | 2.0%          |
|   | % of Influenza positive tests for Current Week                             | 1.5%     | 1.0%          |
|   | Influenza Associated Hospital Admissions (Illinois ICU only is reportable) | 0        | 911           |
|   | Influenza Associated Pediatric Deaths Season Total                         | 7**      | 149           |

\*ILI "Influenza like Illness" is defined as fever  $\geq 100^{\circ}\text{F}$  with a cough and/or sore throat.

\*\* updated to match IDPH number data

### Purpose of the Coalition Bulletin

Publishing a regular newsletter -- weekly, in this case -- will help keep our LaSalle County Healthcare Coalition in regular contact with up-to-date information between meetings.
