Estimating your Taxable Value

Please note that the report totals the EAV's, and then identifies and subtracts the exemptions, leaving a taxable amount that still does not contain value reductions for TIF.

TIF and Railroad values are listed on the second report. You will need to use these two values in order to obtain your estimated value. (Enterprise zones have expired and will no longer be used in this calculation.) If you have any questions regarding these values, you can contact Janelle Clark in the County Clerk's Office at 815-434-8316.

Formula

- Amount of EAV
 - - Exemptions
 - + Railroads
 - - Any TIF deductions
 - = Estimated Taxable Value
