To lessen your chances of developing the flu, adults and children need to practice good hygiene measures. Teach the importance of covering your mouth when coughing or sneezing, and educate children about hand to mucous membrane transmission. One of the best ways to protect yourself and your children is through frequent and thorough hand washing. People who are exhibiting “flu-like” symptoms should stay home from work, out of childcare and school to minimize transmission.

Remember the 3 C’s: clean, cover, and contain:

- Clean** –frequently wash your hands with soap and warm water.
- Cover** –cover your cough and sneeze.
- Contain** –contain your germs by staying home if you are sick.
